Freelance GTM Engineer & RevOps / AI Automation Builder | Agency Subcontract & White-Label

SUMMARY

Founding GTM and AI product builder who ships GTM automation, CRM cleanup, RevOps dashboards, and AI workflows end to end, from architecture through production. Combines Zendesk Sales Operations experience (Salesforce workflows, CRM data hygiene, executive reporting) with hands-on building in Clay, Apollo, HubSpot, SQL, Supabase/Postgres, and LLM APIs. Remote, NDA-friendly, and available for agency subcontract and white-label work (services: portfolio.novalyteai.com/#services).

SERVICES

- **CRM Cleanup & Dedup (HubSpot / Salesforce):** deduplication, matching, validation, and CRM hygiene
- **GTM Automation:** Clay/Apollo waterfall enrichment, scoring, routing, CRM writeback, webhooks, and n8n/Make/Zapier
- **AI Workflows & Internal Tools:** LLM structured outputs, tool calling, and admin consoles on Supabase/Postgres
- **RevOps Dashboards:** executive dashboards and pipeline telemetry on SQL and BigQuery
- **Geospatial Data & Lead Intelligence:** data normalization pipelines, custom map visualizations, and demand-signal mapping

SKILLS

GTM & CRM: Clay, Apollo, HubSpot, Salesforce, lead capture/routing, lifecycle workflows, CRM hygiene, pipeline telemetry, outbound ops, executive reporting

Engineering & Data: Python, JavaScript/TypeScript, SQL, Supabase/Postgres, BigQuery, REST APIs, webhooks, n8n, Make, Zapier, Git/GitHub, data validation, dashboards

AI: LLM workflows, prompt engineering, structured outputs/JSON schemas, tool calling, AI-assisted development

PROFESSIONAL EXPERIENCE

Novalyte AI — **San Francisco, CA**
Founding GTM and AI Product Builder — *2024 – Present*

- Engineered AI-enabled GTM and operational automation workflows covering lead capture, waterfall enrichment (Clay, Apollo), qualification scoring, routing logic, and CRM writeback.
- Built the operator Revenue Command Center, a unified control plane for acquisition, demand intelligence, and revenue telemetry.
- Deployed Novalyte AI end to end as a multi-sided healthtech platform; owned architecture, SQL data hygiene (cleaning, deduplication, matching), and deployment.

Zendesk — **San Francisco, CA**
Sales Operations Analyst — *May 2023 – Feb 2025*

- Led CRM data-hygiene, validation, and process-improvement initiatives that improved pipeline visibility and enabled reliable sales-performance analysis.
- Supported North American enterprise sales teams through Salesforce workflow optimization, pipeline management, and forecasting.
- Built executive dashboards turning sales activity and pipeline data into conversion, forecasting, and performance insights.

SolarCity — **Oakland, CA**
Inside Sales Representative — *Mar 2021 – Feb 2023*

- Frontline customer-facing sales experience that informs how GTM systems are built and used.

SELECTED PROJECTS

Revenue Command Center (Novalyte AI) — **Internal Operator Platform**

- Admin-console control plane uniting clinic acquisition, demand intelligence, workforce exchange, and revenue telemetry, fed by lead capture, enrichment, scoring, and routing workflows.

Geospatialabs (geospatialabs.com) — **Founder / Independent Prototype**

- Interactive decision-support prototype mapping clinic capacity and local demand signals; data normalization pipelines, custom map visualizations, and query interfaces in JavaScript, Python, and SQL.

EDUCATION

Maestro – A.A.S., Business, Entrepreneurship & AI Innovation — March 2026 – Present

Georgia State University – Bachelor's Degree, Psychology
